Figuring out how to get Things done in larger Teams as a certified Scrum Master, Mentor or Frontend Developer, not just in the software Industry. I help Agencies and Companies to realize accessible Products with Value and with a Focus on happy People. I also enable Conferences to share Experiences.

Outside of the web, I'm a proud father of two beautiful children, a passionate freestyle skateboarder/snowboarder and I like the taste of good espresso.

If there is still time, I push our nonprofit organization [makuyuni.org](http://makuyuni.org) forward, that build schools in the outback of Tanzania where kids have no ability to go to school!
